CEO's Message

Time flies and without me realizing it, I have served as the Group's CEO for one complete year. This one year has meant a lot for me as my Board of Directors, colleagues and business partners sailed in synergy with me through many challenges. I am proud to say, we once again prevailed and stood tall amongst our peers in the industry.

I am pleased to announce that the Group has achieved an increase in revenue for continuing operations of RM822.0 million and a profit before tax of RM51.4 million for the financial year ended 31 December 2011. PPC remained the primary driver of our results in 2011 registering a 65.2% increase in revenue mainly due to the completion of several projects and advancing stages of the on-going projects in our portfolio.

With our current strong footing in the building segment of our construction arm, the management is currently looking into increasing our order book for the infrastructure segment. Our property development arm is also vigorously meeting up with land owners to improve its contribution towards the Group's bottom line.

We should not be contented in our current position but instead should aim for higher growth at work and in life. We must uphold our mission and vision to be the premier builder in the country. This would mean a stronger team spirit – always lending each other full cooperation and helping the weaker ones to grow to their full potential, add value to our products by going for the extra mile in providing good services to our clients, and timely delivery with high quality products.

I strongly believe that with our wealth of resources and expertise in the Group, we can achieve better results for the year 2012.

Cheah Ham Cheia
Chief Executive Officer

PPB WELCOMING THE YEAR OF DRAGON IN A MULTIRACIAL STYLE

Multiracial celebrations are nothing new to a Malaysian. Likewise for the family of PPB. On 4 February 2012, the Group fused together the year-end celebrations namely Deepavali, Christmas, New Year together with 2012 Chinese New Year into one big celebration - "New Year 2012 Muhibbah Celebration".

From the encouraging feedback from last year's celebration of Chinese New Year with the neighbouring communities, PPB once again invited our neighbours around Precinct 16 to join in this joyful event.

Employees of PPB were also seen inviting family members to this celebration, enjoying the dragon dance, acrobatic lion dance, Malay and Indian traditional dance performances.

"This is a tradition that we at PPB want to keep. Festive celebrations are for everyone including our neighbours. This year we saw a good turnout from our neighbours and family members of our employees. Through this activity, we aim to establish a stronger tie with the people working and living around us," said Mr. Cheah Ham Cheia, CEO of the Group.

Putra Perdana Construction Sets To Build The Z Residence

Putra Perdana Construction Sdn Bhd was appointed by Trinity Group Sdn Bhd ("Trinity Group") to build the prestigious The Z Residence at Bukit Jalil. A signing ceremony was held on 14 February 2012 at Trinity's headquarters at The Zest, Kuala Lumpur to formalize this appointment.

The RM220 million luxury high-rise condominium project is located at Bukit Jalil, Kuala Lumpur – a perfect hideaway from the hustle and stress of city living. Designed by an award winning landscape architect, The Z Residence comprises of four blocks of 26 and 27 storey towers and provides residents with

exclusive features such as a floating garden, an infinity pool and sky lounges atop every condominium tower. It is also built based on the concept of healthy city living with an unprecedented 50% of the entire project is devoted to the existing surrounding trees and other greeneries.

Dato' Neoh Soo Keat, Managing Director of Trinity Group commented that PPC's competency in construction and high standards of quality work plus proven capabilities in undertaking fast-track projects had won PPC this job.

Mr. Cheah Ham Cheia, CEO of Putra Perdana Berhad exchanging the endorsed agreement with Dato' Neoh Soo Keat, Managing Director of Trinity Group.

MBAM Safety & Health Awards 2012

En. Muhammad Iskandar bin Dorahim (in PPC white shirt) receiving the RM5,000 cash award from Mr. Kwan Foh Kwai, MBAM President (3rd left), witnessed by YB Datuk Seri Dr. S. Subramaniam, Minister of Human Resources

En. Muhammad Iskandar bin Dorahim, PPC's Safety & Health Supervisor bagged the MBAM Safety & Health Award for Site Personnel at the MBAM Safety & Health Awards 2012 held on 19 June 2012.

This award, organised by Master Builders Association Malaysia is presented to site personnel who had shown high commitment towards safety and health at the construction sites.

En. Muhammad Iskandar joined PPC in 2007 and is a 5-S Blue-Belt Auditor. With the introduction of 5-S at Menara Felda construction site in 2010, he had since been an activist for 5-S, bringing many changes to the day-to-day practices in keeping the work place safe for many of PPC construction sites.

Bomba Malaysia's In-house Training at Menara Felda Site

Members of Bomba Malaysia at the CCTV equipped fire control room which centralized and interfaced all emergency response systems.

On 29 March 2012, members from the Fire and Rescue Department of Malaysia ("Bomba Malaysia") held their in-house training at our 50-storey Menara Felda construction site.

Through this field study, the participants witnessed the comprehensive 3-stage firefighting system installed in the building and other state-of-the-art system such as the computerized addressable fire alarm system monitoring which are not commonly found in conventional buildings.

This training benefitted the crew from Bomba Malaysia as they explored into the differences in service applications compared to other typical buildings visited.

3rd Party Visits At PPC CONSTRUCTION Sites

As the saying goes, "seeing is believing". One sees and one believes.

A number of our construction sites, after putting up good "5-S" effort, improved greatly in its house-keeping and OHS practice, setting good examples to others. As the word gets around, many parties have contacted us to request for site visitations to see our accomplishments. Our site teams were more than happy to share their experience with our stakeholders and many sites were visited by clients, consultants, authorities and even colleagues from other sites in 1H2012. It is our aim that through these visitations, everyone will learn from each other and move the HSE performance to greater heights.

29 March 2012: Buddhist Tzu-Chi Merits Society Malaysia and its fellow members from Taiwan visited Jing Si Hall construction site guided by Mr. Wie Hock Kiong, Advisor of PPB.

26 April 2012: OSH-ERT team from FELDA chose Menara Felda construction site as a field study venue for all its safety and emergency respond team members.

6 March 2012: Employees from sister company Putra Perdana Development Sdn Bhd visited Manipal International University construction site.

7 Apr 2012: Pakatan Reka Arkitek organized a Staff Workshop at Project 2C2 construction site.

PPB Introduces 5-S Awards

Towards end of 2011, a concept was conceived in PPC to introduce the “5-S Awards” to boost its 2 year-old “SIRIM 5-S” programme companywide.

The “5-S” Core Group, led by both QA and Safety Departments, brainstormed together through formal and informal meetings to work out a model to ensure smooth and continuous execution of 5-S at all sites. Many ideas, insights & feedback were gathered from the field participations via debates and dialogues over many “teh-tarik” sessions.

As a result, it gave birth to the quarterly “5-S Awards” focusing on the following categories in early 2012:

Category A: “Good Practice Photos”

All projects need to submit at least “20 Good Practice Photos” per month.

Project with minimum 60 photo submissions will be given a STAR.

Category B: “Green-Belts / Blue-Belts / Good Action T-Shirts”

Project which successfully produced at least 5 number of “5-S Blue-Belts” OR 25 number of “5-S Green-Belts” will be given a STAR.

Category C: “Leadership & 5-S Committee”

Project with STARs for all Categories A, B, D and E will be given a STAR for this Category.

Category D: “Audit Team Reports” by “5-S Core Group”

The “5-S” Core Group will audit the “5-S” practice at all project sites at least once every quarter based on the following key areas:

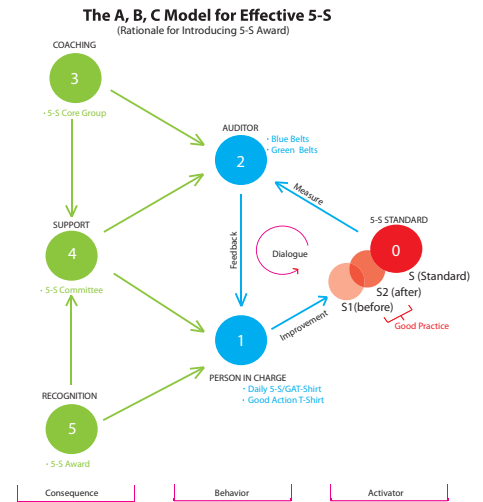

1. Site Entrance/Hoarding/Security
2. Site Office /Meeting Room/Document Control/Sample Room/Pantry/Staff Toilets.
3. Access Road /Logistic / Delivery & Unloading.
4. Sub-Con stores /store-yard /preparation yard
5. Workplace (1. Work in Progress & Waste Management, 2. Completed Work & Protection. 3. Work ready for hand-over & Final Cleaning)
6. Circulation like Staircase, Corridors & Emergency Exits
7. P, M, E (Like Tower cranes, Hoist, Mobile Cranes, Gen-Set, Excavators, Vehicles, etc.)
8. Canteen
9. Workers Camp /Toilets/ Garden & Tree Planting
10. Waste Disposal (Segregation + Collection + Transportation away from site)

From these visits made, the Core Group will meet at the end of every month to decide on which project to be awarded with a STAR for this Category.

Category E: “Third Party Recognition”

Project achieved some measure of third party recognitions will be given a STAR for this category.

Third Party Recognitions include study visitations from third parties, achieving 5-S Certification, winning public recognitions and appreciations among others.

For 1Q2012, the following results have been achieved:

	Category A Good Practice Photos	Category B Blue Belts Green Belts GATS	Category C Leadership & 5S Committee	Category D Audit Team Report	Category E Third Party Recognition	Total Number Of STARs won
Menara Felda	★					★
Hospital Desa ParkCity	★					★
Menara PJH	★					★
Integra Tower	★			★	★	★★★
Jing Si Hall	★					★
Manipal International University	★			★	★	★★★
Z Residence	★					★

Each STAR will carry a cash award of RM100, to be given to the project team who won it.

A certificate will also be given to project team with STAR.

FATHER'S DAY CELEBRATION AT SCHIZOPHRENIA HOME

It is a norm to celebrate Father's Day with our fathers and relatives. However, there is a segment in our society which is often forgotten on days like these. For this reason, PPB visited Pertubuhan Kebajikan Schizophrenia Malaysia on 9 June 2012 to bring cheers and laughter to the home and celebrated Father's Day with the fathers residing in the home.

PPB has been supporting the home in the past 2 years and was pleased to send six employees to visit them and at the same time, had a brief education on this mental disorder condition. To make the event more meaningful, a colleague personally baked a blackforest cake for the patients.

The home currently houses 15 male patients in a rented bungalow in Petaling Jaya. As an NGO, the home is strictly dependent on freewill donations from the public and companies. This home provides a place for rehabilitation for such patients before they return to their homes. Personal counseling and medical consultation is often carried out to ensure that the patients are healthy both emotionally and physically during the rehabilitation process.

Celebrating Father's Day.

One for the album.

A briefing session by the home caretaker.

An A&W lunch treat for all.

Helping students at SJK (T) West Country Barat To Excel in Their Studies

When representatives from PPB drove through a vast waste land with unpaved road in the outskirts of Kajang, they never expected that the primary school which they intended to sponsor could be located in such an isolated area.

As the school is only attended by merely 80 students, SJK (T) West Country Barat is categorised as “Sekolah Kurang Murid” and thus, expected to be self-sufficient. However, as most of the students were from single-parent families with very low household income, the school has to shoulder the task to stay afloat by scouting for donations from the public and temples.

Having learnt of their plight, PPB came forward to sponsor workbooks for students in Standard 4, 5 and 6’s extra classes and also their lunches before the extra classes for the entire 2012.

On 12 April 2012, PPB donated 6 units of used computers to the school to begin their very own computer classes and create awareness among the Standard 1 and 2 students on the functionality of a personal computer. We wish the students happy learning and a bright future ahead!

Due to the space constrain of the building, most students will be allowed to have their tea break in their respective classroom during recess time.

Ms. Thean Kim Sim, Senior Manager for Corporate Communications of PPB handing over six units of personal computers to the school.

Mr. Goh Ceah Chuang, COO of PPB handing over the workbooks and lunch sponsorship to Ms. R. Jammuna Rani, Assistant Headmistress of the school.

Free One Year Tuition For 39 Underprivileged Students

On 9 February 2012, PPB brought good tidings to 39 underprivileged students of SJK (C) Jinjang Tengah 2 by subsidizing their extra tuition classes organised by the school for 2012. Majority of these students come from single-parent families with household income of less than RM1,000 per month and could not afford the extra tuition classes.

This is the second consecutive year PPB helped the school under its School Adoption Programme. Besides helping to improve the school's infrastructure for a more conducive study environment, it is also the Group's objective to provide education opportunities for the needy ones in the school.

In addition to the tuition subsidy of RM7,500, PPB also donated 12 units of customized wooden cabinets to replace the old ones in 12 classrooms which will be used to keep the students' workbooks.

Emergency Staircase, a New Year Gift to Baitus Sakinah Home

Some of the children from the home help to load some household items onto the lorry assisted by PPB's general worker during the house moving process.

Mr. Mahbob bin Kusiran (right), Senior General Manager (Business Development), Saluran Arena Sdn Bhd presenting the cheque to a representative from the home, and witnessed by Mr. Aminuddin bin Ibrahim, Senior Project Manager of Putra Perdana Development Sdn Bhd.

Having an emergency staircase for its home is a dream comes true for Pusat Jagaan Baitus Sakinah Wal Mahabbah.

On 23 February 2012, PPB sponsored RM10,000 for the making and installation of an emergency staircase at the home's new premises in Kota Warisan, Sepang. With this staircase, the home now fulfills the requirements for subsidy application from Jabatan Kebajikan Malaysia.

Besides sponsoring the staircase, PPB also helped the home to relocate one of its centres to the new rented premises in Kota Warisan.

It is Our Joy to Help

Mr. Cheah Ham Cheia, CEO of PPB with Lt. Col. Haji Mohd Yusof bin Haji Dahaman, Chairman of Rumah Tunas Harapan Sepenuh Hati (left) and representatives from Malaysian Social Welfare Department posing for a photograph after handed over the computers.

On 17 February 2012, PPB donated six units of used computers to Rumah Tunas Harapan Sepenuh Hati Bukit Beruntung. These computers will enable the children at the home to learn basic computer skills.

Rumah Tunas Harapan Sepenuh Hati is an orphanage set up by the Malaysian Social Welfare Department to house orphans below 18 years old.

Prior to this, PPB also donated RM2,400 cash to help the home meets its daily needs.

KSPPB 2012 Bowling Tournament Strikes Again

Bowling in PPB is a sport that we at PPB find it hard to resist. On 23 June 2012, we once again have 23 teams marching into ARL Bowl Alamanda Putrajaya at 11.30am sharp, ready to challenge each other for the Challenge Trophy 2012!

The results of the 2012 KSPPB Bowling Tournament:

- | Male Team | Female Team |
|--|--|

KSPPB New Committee for 2012/2013

On 24 March 2012, PPB's sports club held its 5th annual general meeting at Auditorium 1, Precinct 16, Neighbourhood Complex, Putrajaya.

The committee members who will be steering the KSPPB activities for 2012/2013 are:

President	: Lai Chong Haur (HR Dept)
Vice President	: Zainal Azhar b Zainuddin (2C2)
Secretary	: V. Jayasri (Contract Dept)
Treasurer	: Siti Masni bt Safii (Accounts Dept)
Social Coordinators	: Naziham bt Mat Nayan (HR Dept) : Mahfuzah bt Md Noh (HR Dept)
Sport Coordinators	: Shafii b Sallehuddin (Ara Greens) : Mohd Nazarudin b Mohamed Ramli (2C2)
Ordinary Executive Member	: Norazora bt Mohamed (Contract Dept)
Ordinary Committee Members	: Saedatol Maziah bt Ahmad Mustaffa (Contract Dept) : Anita bt Ismail (Admin Dept)
Honorary Auditor	: Teo Lin Cheong (Account Dept)

Free Health Screening For Staff

More than 80 employees from HQ queued to have their health status checked by National Kidney Foundation Malaysia ("NKFM") on 11 February 2012 at PPB's HQ in Putrajaya.

This is the second time KSPPB invited NKFM to provide free basic health check including blood pressure, glucose level, cholesterol and body mass to PPB employees.

"We were excited to receive more than 30 registrations even before the members of NKFM set up their counters. This is a good platform for us to create awareness towards good health among our employees as we strongly believe that healthy employees are keys to achieve higher work productivity," said Mr. Lai Chong Haur, Senior Manager for Human Resource and Industrial Relations cum President for KSPPB.

A talk on "Kidney Disease: Common, Harmful but Treatable" was also held at the Boardroom simultaneously to educate the employees on various ways to identify early symptoms of kidney diseases and to keep our kidneys healthy.

Strengthening Our Human Resources

As the Group continues to grow, our Human Resources Department doubles up its effort to prepare our people for the expansion taking place.

In 1H2012, we conducted two in-house trainings to better equip our people. On 10 & 11 March 2012, a Building Wiring Installation Training was held at Menara PJH construction site and were attended by personnel who are involved in electricity and wiring works. The course gave a better understanding of electrical hazards and ways to minimize these hazards.

In May 2012, two sessions of First Aid and CPR Training At Workplace were held at the Precinct 16 Neighbourhood Complex. This training is especially important to every individual as injuries, accidents and life threatening situations could occur at anytime and anywhere. The Group is scheduling for every employee to attend this course.

Besides, the Group also sent 58 employees to seminars and trainings organised by external trainers to keep ourselves abreast with the latest developments in the industry.

Electrical Hazard

It is undeniable that electric current is dangerous especially when the user does not take safety precautions seriously. Electric hazards usually occur as short circuits and it does not only damage electrical devices but can also electrocute workers which results in temporary injury and at worst, death.

There are various causes of electrical short circuit:

- ◆ Electrical devices which are malfunction but are still in use.
- ◆ Electrical extensions which are faulty.
- ◆ Overloading at one switch point.
- ◆ Improper wiring and bad current-to-earth connections.
- ◆ Being too close to live electrical lines.
- ◆ Being too close to high tension power cables.

Ways to avoid electric hazard:

- ◆ Scheduled and routine maintenance check on the electrical devices and electrical supply outlets.
- ◆ Do not use high powered electrical devices which have no earth wiring.
- ◆ Do not use electrical devices at wet places without any form of protection.
- ◆ Ensure that none of the wire or electrical device is in contact with water when in operation.
- ◆ Turn off all switches when not in use.
- ◆ Ensure that all temporary lightings are encased.
- ◆ Always wear protective clothing, especially insulated shoes when using high powered electrical equipment.

It is crucial to eliminate all possibilities of electrical hazards at the work place. The best method is to practice caution at all times. Electrocutation is a silent killer. Do not take this hazard lightly.

Housekeeping At Site

Good housekeeping at site is important to protect workers and tools/equipment at site from being damaged.

Bad housekeeping:

- ◆ Flammable items left unattended are the cause of fire.
- ◆ Obstacles causing obstruction to the maneuverability of workers.
- ◆ Unkept items could cause damage to other items/tools and injure workers.

Good housekeeping:

- ◆ Ensure that rubbish and working tools are not scattered on the floor and become hazard on the floor.
- ◆ Discard construction waste at designated area.
- ◆ Arrange and keep items/tools after used at their designated place, safe from other workers.

The proper way to provide a safe place of work is to have:

- ◆ A safe passage way for workers.
- ◆ All items/tools are kept properly at all times.
- ◆ All rubbish/waste were to be collected and discarded whenever found to avoid causing hazard especially in time of emergency.
- ◆ All workers to embrace a neat and clean working habit.

A neat and clean site will not only safeguard one's safety and life at site, it also boost the moral level and productivity of workers at site.

Source: Translated from Bulletin E-OSH Judul 1: Siri2, Nadzirah Salha bt Ab Khalid (PPC Trainee from USM at Hospital Desa ParkCity project site).
